posa a SECCO

TROCKENVERLEGEN / POSE A SEC / DRY LAYING

 Le lastre **2CM** sono posabili a secco dando vita a **PERCORSI e CAMMINAMENTI PEDONALI SU SOTTOFONDI IN ERBA, GHIAIA E SABBIA**. Il sistema di posa a secco è immediatamente calpestabile, pratico ed ecologico, in quanto si evita la creazione del tradizionale massetto armato e si esclude totalmente l'impiego di collanti. Il nuovo sistema ceramico di Saime è applicabile in tutti gli ambienti esterni come spiagge, cortili, giardini e terrazzi, grazie alle prestazioni tecniche e alla valenza estetica del gres porcellanato.

 Die Platten **2CM** sind trocken verlegbar und bilden **STRECKEN SOWIE FUSSGÄNGERWEGE AUF UNTERPUTZ AUS GRAS, KIES UND SAND**. Das Trockenverlegesystem ist sofort betretbar, praktisch und umweltfreundlich, da die Erzeugung des traditionellen armierten Unterbetonblocks vermieden wird und man keinerlei Kleber einzusetzen braucht. Dank der technischen Leistungen und der Optik des Steinzeugs ist das neue Keramiksystem von Saime in allen Außenräumen wie Stränden, Höfen, Gärten und Terrassen anwendbar.

 Les dalles **2CM** se posent à sec, pour créer des **PARCOURS ET PASSAGES PIETONNIERS SUR SOUS-COUCHE D'HERBE, GRAVIER ET SABLE**. Le système de pose à sec permet une fréquentation immédiate, il est pratique et écologique car il évite la réalisation de la traditionnelle chape armée ainsi que toute utilisation de colle. Le nouveau système céramique de Saime trouve son application en tout lieu extérieur tels que plages, cours, jardins et terrasses grâce à ses propriétés techniques et à l'intérêt esthétique du grès cérame.

 **2CM** slabs can be dry-laid, in order to make **PEDESTRIAN PATHS AND WALKWAYS ON GRASS, GRAVEL AND SAND UNDERLAYERS**. The dry-laying system can be walked over immediately and is practical and eco-friendly, since it avoids creating the traditional reinforced concrete floor and completely avoids the use of adhesives. This new ceramic system from Saime can be applied in all outdoor surroundings such as shores, courtyards, gardens and terraces, exploiting the technical features and high-quality appearance of porcelain stoneware.

INSTALLAZIONE IN PROSSIMITÀ DI MURETTI, ANGOLI E SPIGOLI

VERLEGUNG IN DER NÄHE VON WÄNDEN, AUSSENECKEN UND INNENECKEN
POSE EN OEUVRE A PROXIMITÉ DES MURS, D'ANGLES RENTRANTS OU SORTANTS
INSTALLATION CLOSE TO WALLS, CORNERS OR EDGES

 **È necessario allontanare i supporti dal muro tagliando due o tutti e quattro i distanziatori.**

 In der Nähe von Wänden, Außenecken und Innenecken müssen die Stelzlager mit Abstand von der Wand platziert werden oder 2 bzw. 4 Abstandhalter eingeschnitten werden.

 A proximité des murs, d'angles rentrants et d'angles sortants, il faut éloigner les supports en coupant deux ou quatre pièces intercalaires.

 The supports must be furthered from walls, corners and edges by cutting two or even all the spacers of their top.

 **Talvolta è necessario tagliare anche la base dei supporti in caso di interferenza con la base dei supporti adiacenti.**

 Unter Umständen ist es auch notwendig die Basis der Stelzlager anzupassen, wenn man diese sehr eng beieinander positionieren muß.

 En cas d'interférence avec la base des supports adjacents il sera nécessaire de couper aussi la base des supports.

 The base of the supports must also be cut in case it obstructs the base of adjacent supports.
